Profile Summary

Full-Stack Developer with hands-on experience in MERN stack, RESTful APIs, and scalable web architecture. Proficient in big data processing with PySpark and practical expertise in implementing **Retrieval-Augmented Generation (RAG)** pipelines for AI-driven workflows. Strong problem solver with **300+ DSA problems solved** and solid CS fundamentals in OOPs, DBMS, and algorithms.

Experience

EKSEWA By SEWA EK Ventures Pvt. Ltd.

Software Engineer Intern

Jun 2026 – Present

Amritsar, India

- Developed frontend modules for an Inventory Store and a full-stack Employee Management System using MERN stack.
- Implemented JWT authentication and RESTful APIs for secure access, attendance tracking, and employee data.
- Gained hands-on expertise in Retrieval-Augmented Generation (RAG) for AI-driven semantic data retrieval.

NPTEL Winter Internship Program (IIT Ropar)

Winter Intern (Virtual) – Mentor: Prof. Sudarshan Iyengar

Jan 2026 – Mar 2026

Remote, India

- Engineered full-stack web applications using MERN stack under the mentorship of Prof. Sudarshan Iyengar.
- Built RESTful APIs and managed database integrations for scalable web applications.

Projects

Doctor Consultancy Platform – React.js, Node.js, Express.js, MongoDB, N8N

Live App

- Architected a 3-tier healthcare platform tailored for **Admin**, **Doctor**, and **Patient** role-based workflows.
- Empowered Admin modules to verify onboarding doctors and manage admin access across the platform.
- Engineered automated email notifications upon slot booking, dispatching meeting links, time slots, and doctor location directly to both patient and doctor.

Brainezium – Content Sharing Platform – React, TypeScript, Node.js, Express.js, MongoDB, JWT

Live App

- Built and deployed a responsive full-stack content publishing platform hosted on Vercel and Render.
- Secured application workflows using JWT authentication, protected API routes, and scalable MongoDB schemas.

Stock Price Analysis – PySpark, SQL, Python, Matplotlib (Databricks)

Source Code

- Analyzed large-scale historical stock data using PySpark, Spark SQL, and Matplotlib visualizations.

Technical Skills

Programming Languages: Java, JavaScript, Python, SQL, C++

Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js

Database: MongoDB, MySQL, PostgreSQL

Big Data & AI: PySpark, Apache Spark, Databricks, Retrieval-Augmented Generation (RAG)

Tools and Platforms: VS Code, IntelliJ IDEA, Git, GitHub, Jupyter Notebook

CS Fundamentals: Data Structures & Algorithms, OOPS, DBMS

Achievements

- Solved **300+ DSA problems** on **LeetCode** and **GeeksforGeeks**.
- Achieved **4-star rating** in **Java** on **HackerRank**.
- Reached **955 rating** on **Codeforces**, participating in competitive programming contests.
- Earned **SQL Certification** (Udemy), mastering database design, complex queries, and joins.
- Certified in **Computer Architecture** by NPTEL (processor design, memory hierarchy, pipelining).
- Certified in **Python** by NPTEL covering programming fundamentals, data structures, and OOP.

Education

Punjab Technical University

B.Tech : Computer Science and Engineering (CSE)

July 2023 - July 2027

CGPA : 8.06
